GARDEN PRODUCE EXHIBITING TIPS...

Select uniform specimens slightly over average size, when possible. Over grown specimens are seldom typical and are frequently coarse and lack flavor. Select a few extra specimens above the requirements of the premium list for last minute replacements. All items in each entry should be uniform in size, shape, color and degree of maturity. Avoid blemishes caused by decay, dirt, disease, insects or mechanical injury. If blemishes of any kind are severe enough, the exhibit may be disqualified. Vegetables should be washed only as a last resort. Clean vegetables with a soft brush or facial tissue to remove loose soil. The tops of all root crops like carrots and beets should be one inch long. Keep the vegetables as fresh as possible before exhibiting.
