

Griggs County Fair board – Minutes for June 13th, 2018 – 6pm @ GC Fairgrounds – Cooperstown ND

Roll Call: Matt, Tom, Dylan, Lexi, Dave H, Brian, Chad, Bonnie, Dave K, Hannah and Jerry

Secretary Report: *Chad moved to accept the corrected minutes, Tom 2nd MSC*

Treasurer Report: *No report*

New Business

1. Advertising GC Courier

- a. *Bonnie reported the GC Courier would run a full color page in the middle of the paper for \$30 like they do for the graduates. They would sell ad space around it to local businesses who typically buy ads for the fair. Bonnie moved to spend \$30 to do this, Lexi 2nd. MSC*

Work Night Items:

- Paint Open Class Standards
 - *Nikki Rahlf, Bonnie, Hannah and Lexi painted.*
- Derby Ring
 - *Dylan and Cody looked at some of the poles. Chad, Brian and Grant are to bring equipment (Bobcat and possibly pay loader) next week to do some dirt work, add a pole and reset pilings.*
- Check PA Equipment
 - *Nothing was checked; need to make sure ours works in case Preston's won't have enough power.*
- Paint Bleachers (weather permitting)
 - *With all the rain forecast for the next few days none of them will be dry for next week. We will try again the week of 6-27-2018.*
- Storage in NW Corner
 - *Matt and Dave K will work on expanding that 6-20-2018, we will need to do a major cleaning in there also.*

Future Work Night Items:

- Moving of Horse Barn
 - *It was discovered doing a walk around that building is of hybrid construction with 4x4 posts in the corners. We will need to have electrical moved from the horse barn to a panel along the fence before we can move it. Matt was going to inquire with Finley Lumber about some kind of steel French doors to use for a new doorway. Brian was to come up with some aerial pictures of the move and where things will be in the new setup. Plan is to put steel siding and roofing on it to match the big barn. Will have a sloped apron from the pad going north to allow ADA compliance. Will have (2) windows put in the lower portion on the south. New French Doors (if we can get them) will be on the North. Upstairs will be used as storage and be locked during the fair so no one can be up in the top. Power should be able to be brought in from the barn.*

Idea for Big Barn: Brian asked if w could do some kind of digital sign to put on the front of the big barn instead of changing the manual sign every year. He will research and come up with ideas and costs. This could be the Fair boards' big item for the celebration next year.
